KeyShot

Rev up your **3D renderings.**

It's the intuitive interface and speedy render engine that empowers you to do your best work. Enjoy the process, and love your results, with KeyShot.

Render them **speechless.**

Accuracy is no accident – we've spent years on the science behind KeyShot's photorealism. All you need to do is pick your settings and perfect your scene.

- **Color options and libraries:** Pantone, Coloro (NEW), Cie-Lab, RAL, Gloss values.
- **RealCloth™:** Create realistic woven materials.
- **Advanced lighting:** Visualize interior and exterior spaces with the most advanced lighting algorithms available.
- **Cutaway:** Expose the inner workings of your design with dynamic cutaways and animation.

No wait, no worries: **KeyShot is built for speed.**

KeyShot can work on most modern laptops, with no expensive upgrades needed for fast performance. See your changes immediately with real-time results, and if you like, switch from CPU mode to GPU mode with just one click.

What's new in **KeyShot**

The latest KeyShot updates bring more options, flexibility and power than ever before, including:

- 3500 Coloro colors
- Twinbru Fabrics
- Automated color accuracy across machines
- Faster, more accurate animations
- A faster KeyShotWeb with image gallery and AR model for iOS devices
- Open-source EXR output option
- Image sharpening

With so many features, **it's hard to pick a favorite.**

KeyShot may seem simple at first, but more advanced users will quickly discover advanced capabilities to meet their needs.

Stress-Free Syncing

KeyShot connects seamlessly with your preferred 3D application:

- **Native support for 30+ file formats**
- **Free plugins with one-click loading**
- **LiveLinking™ keeps your design in sync across applications**

> *KeyShot produced better results, at faster speeds and lower cost. It was more versatile than its competitors and we could get people working right off the bat without extensive training.*
>
> **Under Armour**

Network Rendering

Need more speed? KeyShot Network Rendering allows you to offload your rendering tasks and move on to designing your next project. It's a low-cost, high-reward upgrade.

KeyShotWeb

KeyShotWeb turns a single KeyShot scene into 360° assets for your team, your clients and your customers. Speed up the approval process, provide consistent visuals across teams and delight customers with interactive product images.

KeyShot Cloud Library

Need something to start with? Select among thousands of materials, environments, backplates and models, or upload your own for easy access.

- **Geometry Editing:** Mesh Simplification, Flip Normals, UV Unwrap, Auto UV Unwrap, Close Mesh
- **Animation:** Physics, KeyFrame, Environment Rotation, Sun & Sky Day Arc, Twist Camera
- **Workflow:** Material Information Manager, Headless Scripting, CMF Documentation
- **Materials:** Cloudy Plastic, Fuzz, 3D Paint, Axalta Paint, Multi-Layer Optics, Scattering Medium, Axalta Paints
